[Named best SIEM, analytics and log management offering at the inaugural Channel Security Awards](#)

[Awarded by SC Magazine as the Best SME Security Solution in 2018](#)

## Company Overview

### Why Choose a Security Operations Center (SOC)-as-a-Service?

Today's leading organizations need to protect themselves against the most advanced threats, but lack the internal resources to address the high costs, complexity, and additional personnel that's required to build an impactful SOC.

#### Organizations face fundamental security challenges

#### Too Much Noise

Alert fatigue, vendor fatigue, compliance and regulation fatigue – the journey never ends

#### Security Skill Shortage

Recruiting and retaining cybersecurity talent is hard, sometimes impossible

#### Cost of Response Time

The longer it takes to respond to an incident, the more expensive it is to remediate

### Arctic Wolf SOC-as-a-Service

The Arctic Wolf SOC-as-a-service provides scalable managed detection and response (MDR) and managed risk services through the industry's original Concierge Security™ Team. Combining a custom technology stack with tried-and-true processes and expert insight, Arctic Wolf delivers custom vulnerability assessments, threat hunting, alerting, and reporting to help improve security posture and protect resource-constrained organizations from cybersecurity threats.

#### Personal

- ▶ Named Concierge Security™ Team acts as an extension of your team
- ▶ Customer-specific alerts, response management, and in-depth analytics and reporting

#### Predictable

- ▶ Subscription-based pricing determined by users and servers, with no upfront costs
- ▶ Compliance reporting and management

#### Protection

- ▶ 24x7 monitoring of data, networks, endpoints, and web applications
- ▶ Cloud Monitoring (O365, G Suite, Box, Salesforce, AWS, Azure)

## Arctic Wolf Solutions

Arctic Wolf solutions install in minutes and immediately begin monitoring your environment, ensuring proactive and dynamic detection and response to threats, intrusions, and attacks. Organizations receive timely and actionable intelligence—without the overwhelming noise of endless false positives.

### Prevent attacks before they occur with Arctic Wolf™ Managed Risk

- ▶ Dynamic asset identification
- ▶ Continuous assessments
  - Internal vulnerability
  - External vulnerability
  - Host-based vulnerability
- ▶ Account takeover risk detection
- ▶ Security controls

### Identify and respond to attacks with Arctic Wolf™ Managed Detection and Response

- ▶ 24x7 monitoring
- ▶ Network inspection
- ▶ Log aggregation, correlation, and analysis
- ▶ Threat detection
- ▶ Cloud security
- ▶ Compliance reporting
- ▶ Endpoint visibility
- ▶ Incident response

## Delivering Solutions Through Valued Partners

At Arctic Wolf, we take great pride in working with partners to deliver personal, predictable protection from cybersecurity threats.
