TechTalk Presents Exclusive Wine Dinners

Sommelier-hosted private events

We believe that some of the most memorable and lasting connections are made at the dinner table. That's why we developed the TechTalk Executive Wine Dinner Series.

If you're looking to reach a more targeted audience, consider hosting your own sommelier-hosted TechTalk Exclusive Wine Dinner. These single sponsor, private events are the perfect opportunity for your team to get that invaluable face time with the influencers and decision makers from the companies you want to reach.

Our staff sommelier will select a world-class dining destination in the city of your choice, and TechTalk will fill the room with the attendee profile you provide. Guests will be guided on a culinary journey by our sommelier and will enjoy a carefully selected menu, paired with world class wines.

We take care of everything, the event and attendees are yours:

- Single sponsor exclusive events at world class venues
- Attendees consist of your ideal profile company and title
- Sommelier hosted with hand-selected menu and wine pairing
- Face time with IT influencers and decision makers

**Sommelier-hosted wine dinners are exclusive.
Contact us today, limited dates are available.**
